SUMMARY OF THE REASONS FOR DECISION:

The publication entitled *Magnolia* is classified as:

Objectionable except if the availability of the publication is restricted to persons who have attained the age of 16 years.

The publication is comprised of two separate DVDs. One consists of a version of the 35mm film of the same title classified by the Office of Film and Literature Classification as objectionable except if the availability of the publication is restricted to persons who have attained the age of 16 years, with the descriptive note 'Contains violence, offensive language and drug use.' This decision was registered on 21st February 2000.

The other disc is comprised of additional components, including deleted scenes, a mock 'infomercial', outtakes, a music video and a documentary about the making of the feature. However, these additional components do not affect the classification given to the 35mm film.
